To Whom It May Concern:

Reference for: Ms. Layan M. Alharbi

I am pleased to write a letter of recommendation for Ms. Layan M. Alharbi. She was one of my students in Cryptography course I taught in the Department of Computer Science and Artificial Intelligence at Umm Al-Qura University. Layan was among the students who obtained excellent grade (A+) in the course in 2024 academic year. During the course, Layan proved she was able to adopt the programmatic and cryptographic thinking with much effort and deep understanding into completing tasks successfully with favourable results despite deadline pressure.

Layan is a talented student and would make a great asset to any organization. She is hard working, adapt with difficulties, has the ambition and the ability to learn and improve her skills in a short time. I would like to take this opportunity to recommend Layan, and I feel confident that she will continue to succeed in her future.

Sincerely,

Dr Shaimaa M. Bajoudah
College of Computing
Department of Cybersecurity
Umm Al-Qura University
Makkah, Kingdom of Saudi Arabia
